

Download .RDP file

To do this go to its WEB interface at <https://rds.physics.leidenuniv.nl> and login with your PHYSICS or STERREWACHT domain credentials.

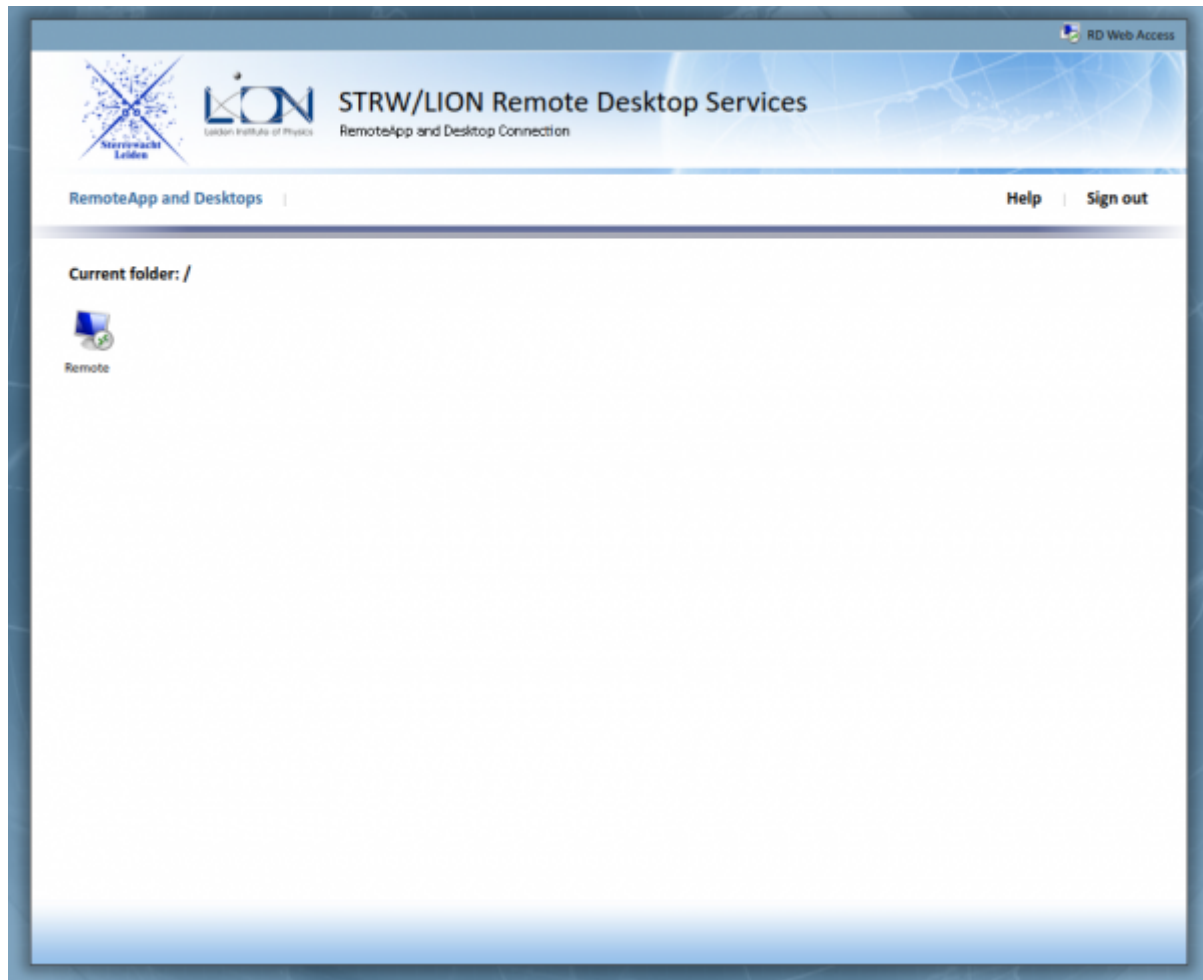

The screenshot shows the login interface for STRW/LION Remote Desktop Services. At the top, there are logos for STERREWACHT Leiden and LION Leiden Institute of Physics, followed by the title "STRW/LION Remote Desktop Services" and the subtitle "RemoteApp and Desktop Connection". A "Help" link is in the top right. The main form has two input fields: "Domain/user name:" with the value "STERREWACHT\deul" and "Password:" with masked characters. Below these is a "Security" section with a red warning message: "Warning: By logging in to this web page, you confirm that this computer complies with your organization's security policy." A "Sign in" button is positioned below the warning. At the bottom, a note states: "To protect against unauthorized access, your RD Web Access session will automatically time out after a period of inactivity. If your session ends, refresh your browser and sign in again."

Now confirm your 2FA:

The screenshot shows the Duo 2FA authentication page. On the left is the LION Leiden Institute of Physics logo and links for "What is this?" and "Need help?". Below these links is the text "Secured by Duo". On the right, there is a "Device:" dropdown menu showing "Android (+XX X XXXX4975)". Below this is the heading "Choose an authentication method" followed by a text input field containing "ex. 867539" and a green "Log In" button. At the bottom, a blue banner displays the instruction "Enter a passcode from Duo Mobile." with a close button (X) on the right.

After you have logged in you see a page with a remote computer icon. Click on the icon and a file will be downloaded. The file has a funny name, but has the extension `.rdp`
