

Self Service from Terminal Server

Use your Linux Desktop and run the command `winclient` from a terminal. This will open a remote desktop connection to our terminal server Texel.

Login to the terminal server using your STRW account information. You now have a Windows desktop in a window and on that desktop you see an Internet Explorer icon named NUWD.

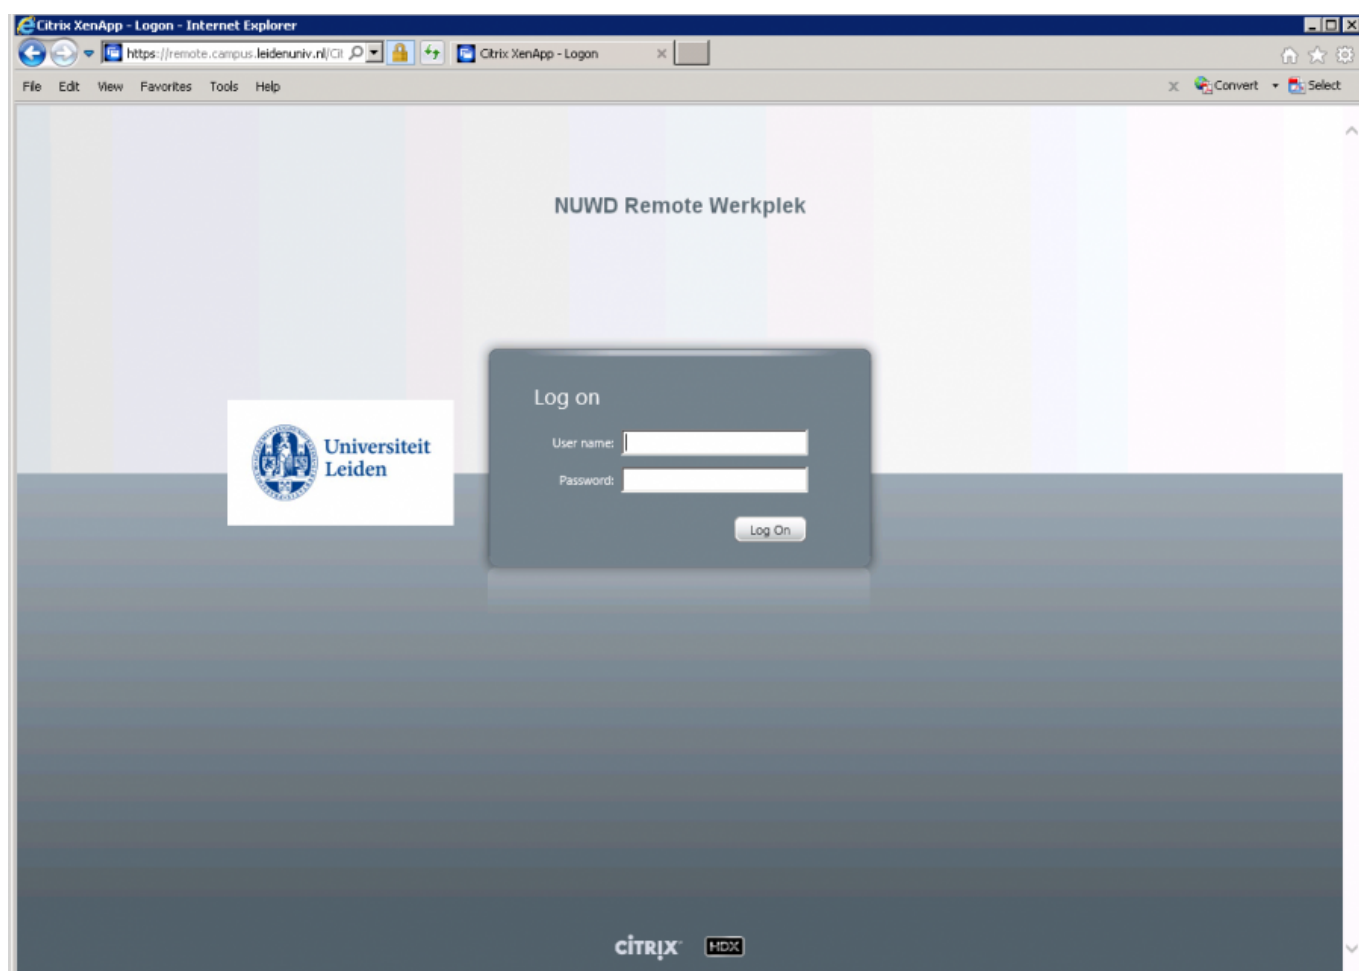

Click on that and you will get the Remote Werkplek Login Screen in a browser.

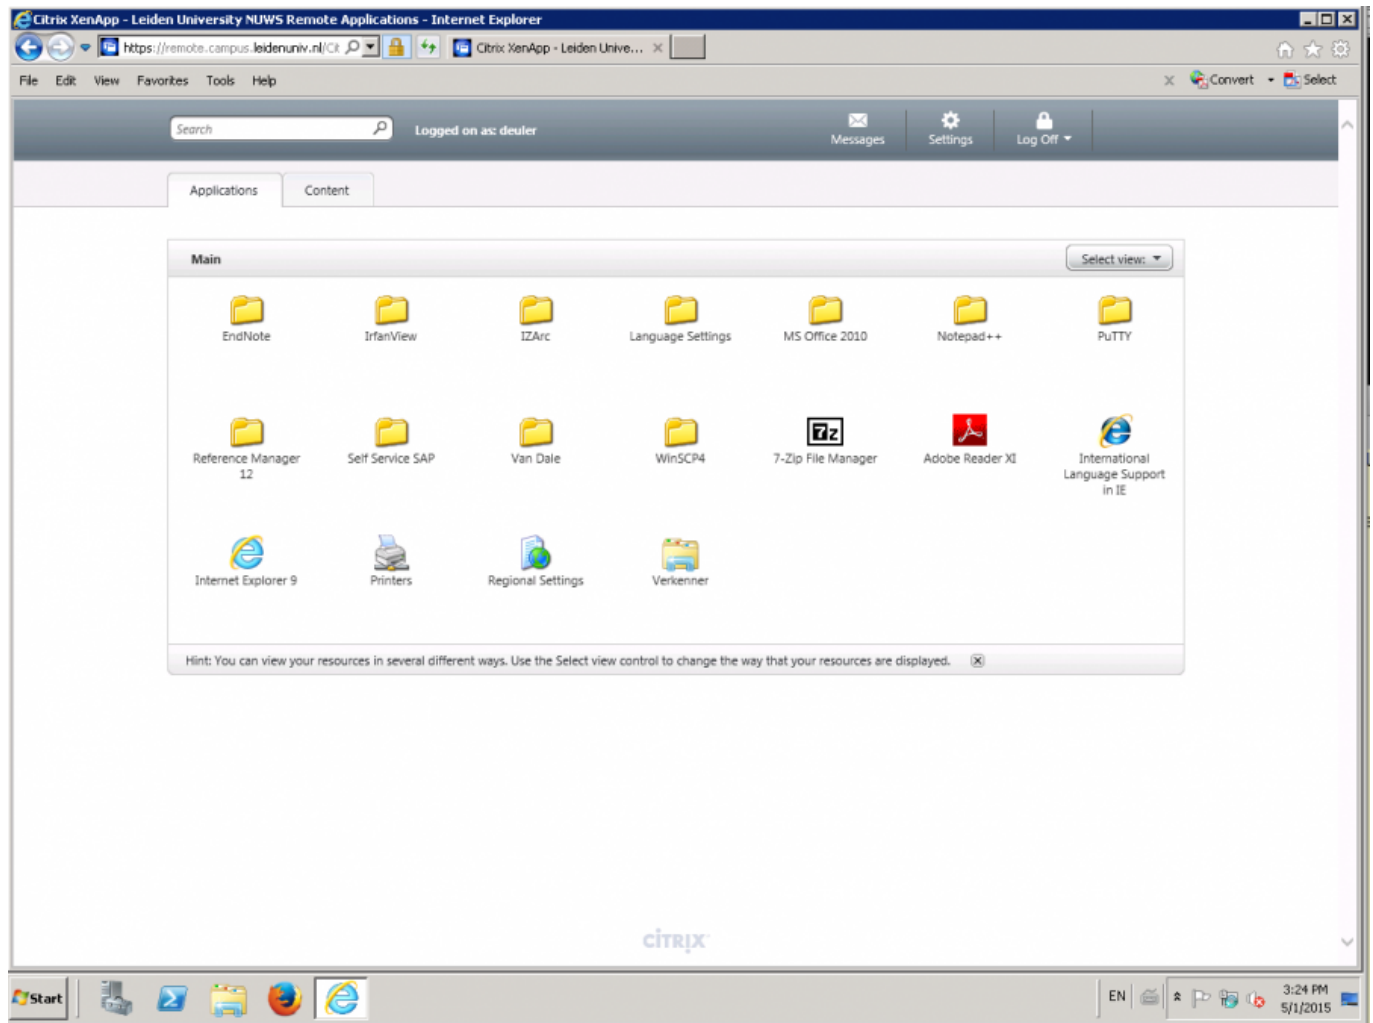

Remote Werkplek Login Screen

After the above actions you will see the Remote Werkplek Login Screen:

Last
update: 2016/11/27 13:16 univ:selfservice:termnal_server https://helpdesk.lorentz.leidenuniv.nl/wiki/doku.php?id=univ:selfservice:termnal_server&rev=1480252578

Login to the Remote Werkplek using your University (ULCN) account information and you get the Remote Werkplek desktop:

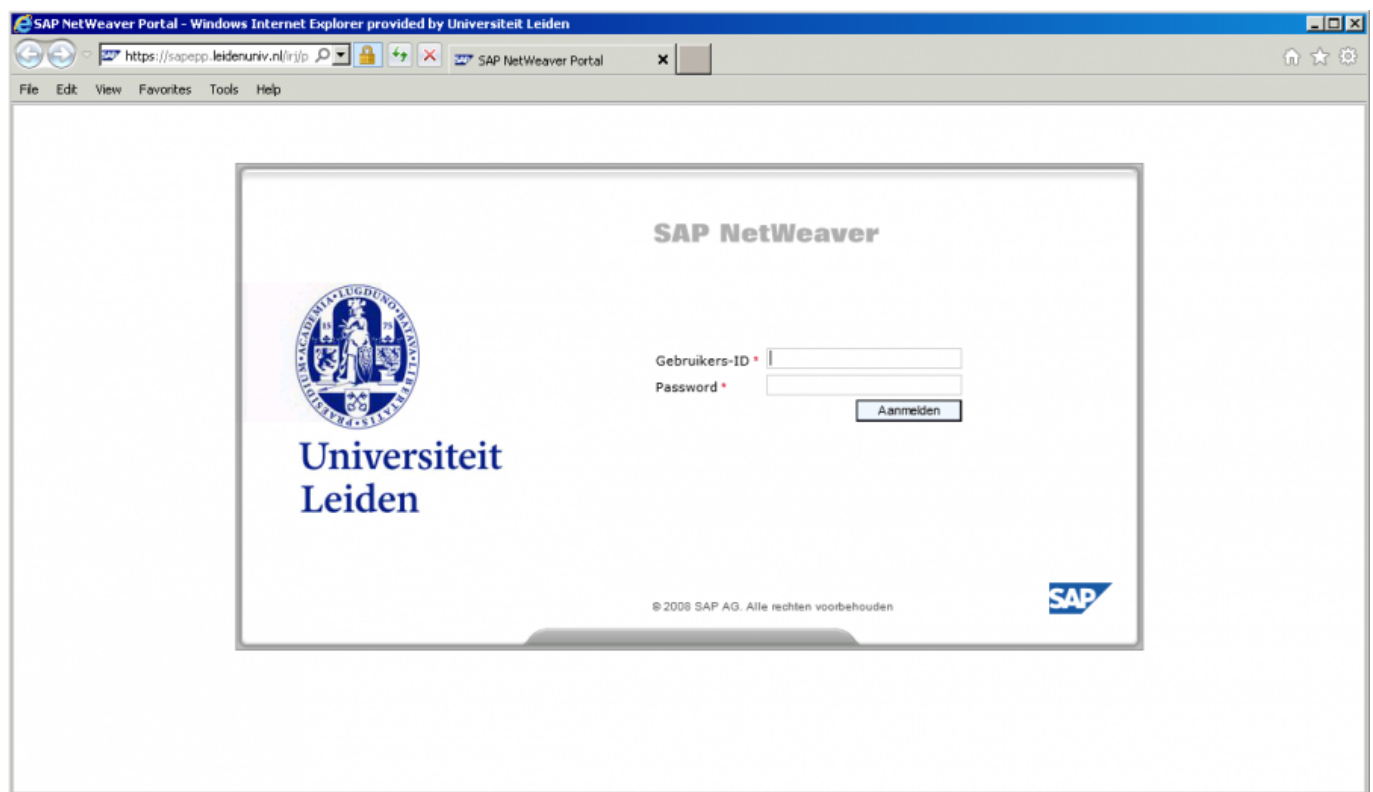

Click on the Self Service SAP folder and then on the Sap Self Service Internet Explorer Icon

SAP Self Service

After clicking you will see a window pop-up telling you the Citrix Receiver is Launching. Once this is done the IE window with the Self Service login appears.
